## Last week in Reception:

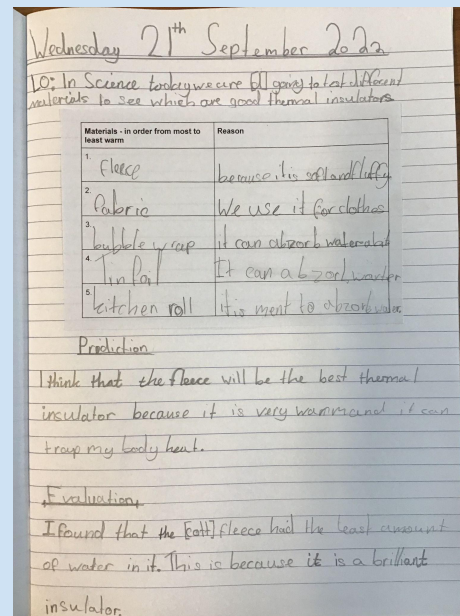

How do you trap a tiger? Reception read the story 'The Tiger and The Jackal', a story about a tiger who doesn't keep his promise and tries to eat a boy. What a naughty tiger! Reception decided that they he was "not fair!" and so designed a tiger trap to stop him eating children. They had tiger traps made from stickle bricks, crates and planks and a cunning plan to trap him in a hoop and put him in the house with a big door on and a padlock.

## Last week in Year 5:

In science this week, year 5 have been investigating different materials to see which is a good insulator. After examining the different materials and making predictions, we tested them all by wrapping them around beakers. With an ice cube in each, we then waited to see how quickly they melted. We found the best insulator was the fleece because it kept the ice solid for the longest.

Best attendance last week: congratulations to Class 4 with 96% and Class 14 with 99%. Our whole school target is 97%.

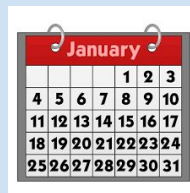

## Sport/PE page:

Last week, KS1 children were developing their coordination by completing footwork activities. KS2 children had their first lesson of tag rugby with a focus on running with the ball. This week, children will develop their passing and tagging skills in lessons.

Year 5 and 6 children have also been invited to apply for an 'Active Crew' role in school. This role will involve supporting and promoting physical activity in school.
