

Hello again Year 1!

It is another lovely day outside, so today we are going to find out about how to stay safe in this wonderfully warm weather. As Friday is World Environment Day, we will be doing lots of outdoor activities this week, so learning how to stay safe in the sun is very important. Here are today's activities.

### English

Watch the story Adrift <https://www.literacyshed.com/adrift.html> with someone in your home.

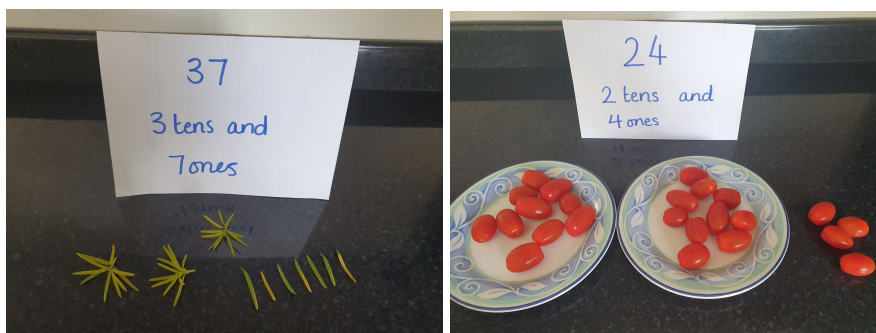

Talk to someone about what it would be like to sail through the skys, living on an animal or floating rock. Talk about how the characters were feeling in the video. Imagine living in the sky yourself. What would you live on? How would it fly? I found lying on my back in the garden, looking at the clouds, helped me to imagine my flying home. I think I would like to live on top of a giant magical rabbit, which hops from cloud to cloud!

Once you have an idea, draw your flying home and add some labels.

### Maths

Today we are making numbers using tens and ones. Just choose any number, then show me how you can make it. Don't forget to group your tens together.

You can use anything you want, toys, leaves, cookies....just use your imagination, and have fun making numbers!

## Outdoor Learning

The weather has been lovely recently, but whilst it is fun to play in the sun, it can also be dangerous. If you're not careful, it is easy to become dehydrated or get sunburn. Have a listen to Mr Tumbles top tips for sun safety:

<https://www.bbc.co.uk/cbeebies/watch/something-special-safe-in-the-sun-song>

Can you remember all of the tips? Can you design a poster to remind everyone of the things that you can do to protect yourself in this warm weather.

## Phonics

Dont forget to have a look at today's phonics lesson.

Humphry has been enjoying playing in the paddling pool while the weather is so hot. Don't worry, he has got plenty of suncream on! Lulu is having lots of fun monkeying around on the trim trail at school today!

We hope you are all having a great week.

From Mrs Morris and Mrs Turrell.
